PROFESSIONAL TRAJECTORY

- Co-Founder & Software Engineer @ DB-RM Solutions** 2023 – Present
I specialize in the technical execution of custom web applications and professional web design. My focus is on engineering high-performance, modern digital solutions that combine intuitive user interfaces with a clean, scalable technical foundation.
- Consultant & Full-Stack Developer @ bridgingIT** 2022 – Present
As a Consultant, I develop modern full-stack applications and Microservices using Spring Boot and Node.js. I work extensively within containerized environments using Docker and Kubernetes, and I actively support the automation of CI/CD pipelines in Azure and Google Cloud to ensure smooth and reliable deployments.
- Associate Consultant & Full-Stack Developer @ bridgingIT** 2020 – 2022
Contributed to the development of full-stack applications for enterprise clients using Java, Node.js, and Express. I ensured high software quality by implementing automated tests (Jest/JUnit) and actively supported CI/CD deployment workflows within agile teams.
