PROFESSIONAL TRAJECTORY

- Co-Founder & Software Engineer @ DB-RM Solutions** 2023 – Present
I specialize in the technical execution of custom web applications and professional web design. My focus is on engineering high-performance, modern digital solutions that combine intuitive user interfaces with a clean, scalable technical foundation.
- Consultant & Full-Stack Developer @ bridgingIT** 2022 – Present
Promoted to Consultant following an internal coaching program. I specialize in Java and Node.js backend development while delivering end-to-end full-stack solutions, leveraging Bash and Azure Pipelines for cloud-based automation.
- Associate Consultant & Full-Stack Developer @ bridgingIT** 2020 – 2022
Developed enterprise-grade solutions using Java, Express, and Node.js. I focused on building robust full-stack architectures and managing CI/CD workflows through Azure Pipelines.
